About Keys to Independence

The Keys to Independence Act, passed into law in 2014 by the Florida legislature, and further updated with passage of Senate Bill 60 during the 2017 legislative session, recognizes that a young adult cannot be fully independent without a driver's license. A driver's license enables him/her to have a job, go to school, engage socially and contribute to their community. The Keys to Independence Program seeks to equalize the balance between safety and opportunity for children in foster care and to promote age-appropriate normal activities including obtaining a driver's license.

The Keys to Independence Act Program is intended to create opportunities and solutions to these barriers through reimbursing the cost of licensure, driver's education, other costs incidental to licensure and motor vehicle insurance for children in licensed out-of-home care who have successfully completed a driver's education program.

Program Eligibility Requirements

1. Per section 409.1454(4), Florida Statutes, eligible youth include:

- a. Youth in out-of-home care;
- b. Youth who have reached permanency may receive services up to 6 months after the date they reach permanency;
- c. Youth in out-of-home care who turn 18 years of age may receive services up to 6 months after the date they turn 18; or
- d. Youth who are continuing in care under section 39.6251, Florida Statutes.
- e. Youth continuing in care under section 39.6251, Florida Statutes, must demonstrate that such costs are creating barriers for obtaining employment or completing

educational goals.

f. Youth must also be eligible to obtain licensure pursuant to Chapter 322 Florida Statutes.

State of Florida Process for Licensure

*information adapted from the State of Florida Department of Motor Vehicles, www.flhsmv.gov/teens/parent_gdl.html, 2014

Florida's Graduated Drivers Licensing (GDL) law has three stages:

1. Learner's License
2. Intermediate License
3. Full Privilege License

Learner's License

Youth must be at least 15 years old to apply for a Learner's License. They must have completed a 4-hour Traffic Law and Substance Abuse Course, pass a written test, vision test, and hearing test.

Youth holding a Learner's License can only drive during daylight hours during the first three months and until 10 PM thereafter. The youth must ALWAYS be accompanied by a licensed driver over the age of 21 years old, occupying the front passenger seat of the vehicle.

Intermediate License

To earn an Intermediate License, youth must be at least 16 years old AND have held a Learner's License for at least one year without any traffic convictions. Additionally, the youth must submit a signed [Parental Consent Form](#). The Parental Consent Form requires a parent/guardian to certify that the youth has had at least 50 hours of behind-the-wheel driving experience, of which 10 hours must be at night. Once the youth obtains an Intermediate License, their driving privileges are based on their age:

- 16 years old
 - Driving allowed between 6 AM and 11 PM
 - All other times must be accompanied by a licensed driver at least 21 years old occupying the closest seat to the right of the driver, or be traveling to or from work
- 17 years old
 - Driving allowed between 5 AM and 1 AM
 - All other times must be accompanied by a licensed driver at least 21 years old occupying the closest seat to the right of the driver, or be traveling to or from work.

Full Privilege License

When the youth turns 18, restrictions are removed from their license.

Reimbursement Limits

Reimbursement limits have been established so that the limited funds allocated to the Keys to Independence Program will reach as many eligible youth as possible. Limits are per enrolled youth:

- Learner’s License Fee – Actual cost or \$100 limit
- Driver’s License Fee – Actual cost or \$100 limit
- Testing Fee (knowledge or skill retest) – Actual cost or \$100 limit
- 4-Hour Traffic Law & Substance Abuse Course – Actual cost or \$100 limit
- Driver’s Education Course – Actual cost or \$500 limit

Reimbursement Limits (continued)

- Insurance – Actual cost. Monthly limitations may be imposed at a later date based on availability of funds. Ample notice will be provided to youth and caregivers of such changes
- Other costs incidental to licensure – To be determined on an individual basis
- Deductible (when youth was driving during accident) – Actual cost or \$1,000 limit

Frequently Asked Questions

1. What happens in the event the youth moves to a different placement?

Anytime a youth moves placements, an Initiative Support Manager must be contacted. If a youth moves to a different out of home placement, they are still eligible for the program, but must submit a new Participant Roles & Responsibilities Agreement signed with the appropriate caregiver. An Initiative Support Manager will work with the youth and their new caregiver to transition insurance coverage, if applicable. If the youth is not covered by a policy during the transition, the youth should stop driving during this period.

If a youth's status changes and they are no longer in out of home care, they are no longer eligible for the program or may be eligible for a limited time period of up to six months. Contact your Keys Initiative Support Manager.

If a placement or status change occurs in a period for which insurance has already been reimbursed, the prorated insurance premium must be returned to the Keys to Independence Program. Contact an Initiative Support Manager to discuss a reasonable timeline; insurance companies will reimburse the policyholder for the prorated amount effective the date a youth is removed from a policy. Once received by the policyholder, the funds should be repaid to the program. Each youth and caregiver is required to agree during the application process to notify the program in the case of such an event. Both are individually responsible to make this notification. Quality control checks of each participant will be conducted randomly to confirm placement status.

2. The youth took the skill or knowledge test, but did not achieve a passing score. What happens next?

The youth should follow DMV guidelines for waiting periods between retake attempts at the skill or knowledge test. In between tests, we encourage the caregiver to actively assist in studying and/or enhancing driving skills in areas of deficiency.

The initial attempt at taking the skill and knowledge tests are included in the cost of the license fee. Additional fees are charged by the DMV for each subsequent re-take of either test. The Keys to Independence Program is able to reimburse up to \$100 in such testing fees – just submit the payment receipts with the Reimbursement Request Form.

3. Once a youth is enrolled in the program, are there time limits to achieve each licensure status?

Keys to Independence does not impose specific time limits on enrolled youth. However, because funds are limited and must be expended on a first come, first serve basis, staff will periodically contact enrolled youth to discuss their progress. If completion of the permitting process or driver's education is delayed, the program will be unable to hold funds for insurance or other expenses if the youth has not progressed through the process at a normal rate. If an enrolled youth experiences an unexpected barrier, he/she should contact an Initiative Support Manager so that they can work together to find a solution.
